SKI FEATURES:

ROCKERLINE
Our Intermediate to Pro Competition skis follow a very similar 3-stage rocker pattern. All have dramatic flatspots under the front foot for added stability and maintenance of speed leaving the second wake. Every skier needs a consistent place to stand, and we offer it to you. On the other hand, Competition Freeride, Rivals and the Judge have a continuous rocker. A consistent bend in the ski allows it to sit deeper in the water. This means a more controlled ride for the beginner to intermediate skier.

FILLED-IN TIP CONCAVE
Creating a flat surface at the front end of the ski lends support as a skier torques the ski through the turn. At slower speeds, a filled-in tip concave keeps a ski on top of the water, carving the turn, rather than "dumping" the skier to the inside.

90 DEGREE TOP EDGE
When the edge of the ski where the top surface meets the sidewall is kept at a sharp 90 degrees, the ski will stay riding higher in the water, holding it on the sidewall, and not allowing it to roll into the turn too soon.

BLENDING RADIUS
By essentially shallowing the concaved bottom surface out by the bevels, a ski has less drag. A blending radius will also keep the ski moving through the finish of the turn without "biting" and stopping.

OVERSIZED INSIDE-RADIUS
The sidecut of our skis is inverted in the tail, actually cutting to the inside. The water flow over this area creates suction, holding the tail deep in the water during high-speed turns. The reduced surface area also permits the tail of the ski to "wash" easier, causing a quick pivot at the finish of the turn.

BEVELS
The Monza employs our smallest, roundest bevel. These bevels will give the greatest "loose" feeling on the water, giving a skier the ultimate freedom to make quick edge changes and ski with extreme speed. As a bevel gets larger and sharper, stability is added. Our skis benefit from a variance of bevel combinations suited for the skier's style. A bevel that is sharper than the Monza will have a more deliberate feeling on the water, giving solid edge hold. One that is larger will have added stability and ride higher in the water.

SKIERS WEIGHT

180 lbs. & up (82 kg & up)	170-220 lbs. (77-100 kg)	150-200 lbs. (68-91 kg)	130-180 lbs. (59-82 kg)	120-160 lbs. (54-73 kg)	90-140 lbs. (40-64 kg)	80-120 lbs. (36-55 kg)	60-110 lbs. (27-50 kg)	BOAT SPEED

70"-71"	69"-70"	67"-68"	67"-68"	64"-66"	63"-65"	63"-64"	61"-64"	34-36 mph (55-58 km)

SKI LENGTH
*These are only recomendations,
sizing may vary depending on skier ability.

SYNDICATE A1

FEATURES:
- Bob LaPoint Design – CAD-Shaped Tip to Tail
- Hybrid Concave – Increased Angle and Velocity
- Torsional Carbon Construction (TCC) – Increased Speed and Stability
- Correct Center-of-Mass – More Ski Control, Less Tip Chatter
- Surface Area Sizing – Small Ski Feel, Big Ski Speed
- Ø-Draft Fin Slot – Precision Alignment, Low Drag
- CNC-Machined PVC Foam Core – Dynamic Edge Change Transitions
- Handmade in Redmond, Washington

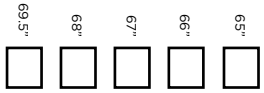
SIZES:
65”, 66.25”, 67.5”, 68.75”

68.75" 67.5" 66.25" 65"

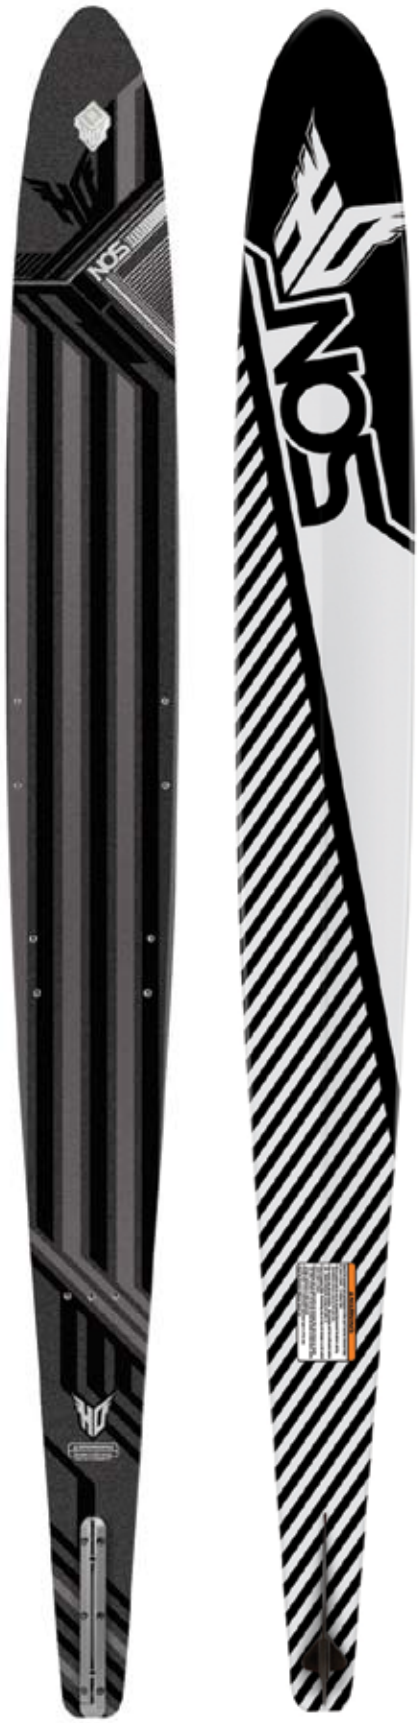
MONZA

FEATURES:
- Torsional Carbon Construction (TCC)
- Increased torsional flex pattern
- Athlete-tuned longitudinal flex patterns
- Enhanced 3-stage rockerline
- New carbon twill topsheet
- New aerospace-level core tolerancing
- Proven Shape

SIZES:
65”, 66”, 67”, 68” 69.5”



NOS



FEATURES:
- Supercharged, carbon enhanced Nitro shape
- 3.75% increased forebody surface area
- Oversized inside radius tail sidecut
- Small, sharp bevels for quick turns

SIZES:
65”, 67”, 69”

69" 67" 65"

TRIUMPH

FEATURES:
- Increased surface area for reduced speeds
- Small bevel design for turn finish support
- Oversized tail sidecut for stable tail hold
- INT Wide Ride division ski of choice
- Rips in or out of the course

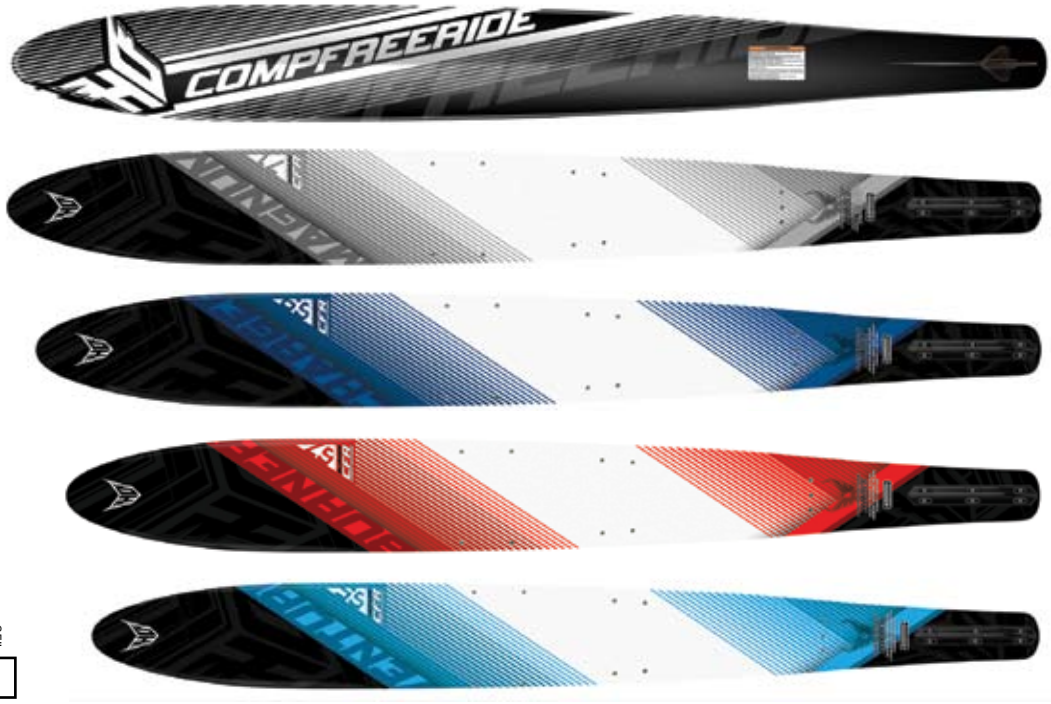
SIZES:
65”, 67”, 69”, 71”

71” 69” 67” 65”

COMP FREERIDE

FEATURES:
- Most popular ski in the HO Ski line
- Deep-V bottom design for increased stability
- Pronounced inside-radius sidecut performance
- Deep bevel design for a stable ride

SIZES:
65” Venture, , 67” Burner, 69” Charger, 71” Magnum



71” 69” 67” 65”

COUTURE

FEATURES:
- Proven Monza shape
- Stabilizing polyurethane core
- Blended carbon fiber/fiberglass construction
- Women's specific flex pattern

SIZES:
63.5", 65"

65" 63.5"

MUSE

FEATURES:
- Women's Comp Freeride
- Deep-V bottom design for a smooth and stable ride
- Women's-specific flex pattern
- Increased surface area for effortless deep water starts

SIZES:
65"

65"

REVOLT

FEATURES:
- Specifically Designed Controlled Rebound Technology (CRT)
- Enhanced 3-stage rockerline
- Proven Monza shape

SIZE:

68.5”

IMPACT

FEATURES:
- Deep-V bottom stability
- Smooth, forgiving flex
- Great edge hold with increased control and stability

SIZE:
67”

67”

PINNACLE

67"

FEATURES:
- World's first convertible combo skis
- Developed from the CompFreeride Series
- 1 inch of boot fore/aft adjustability
- Boots forward for 2 ski carving
- Boots back for slalom ride

SIZE:
67"

BLAST

67" 63" 59"

FEATURES:
- Wide forebody for effortless starts
- Deep-V bottom design for improved tracking
- Revolutionary new Eclipse boot comes standard
- New floating tongue design
- Increased comfort
- Improved fit for all foot sizes
- New forefoot stretch panel for clean aesthetics
- Elastic ankle retention strap
- Increased foot volume fits larger, wider feet more comfortably

SIZES:
59" skiers up to 135lbs. (61kgs.)
63" skiers 75-150lbs. (32-68kgs.)
67" skiers 120lbs. and up (55kgs.+)

EXCEL

67" 63" 59"

FEATURES:
- Tunnel bottom design creates a solid skiing platform
- Internal flex-enhancing bars for an effortless, low-drag ride
- Updated Helix boots come standard
- Improved forward lean
- New forefoot pull tab for easier entry in water
- Increased foot volume fits larger, wider feet more comfortably

SIZES:
59" skiers up to 120lbs. (55kgs.)
63" skiers 75-150lbs. (32-68kgs.)
67" skiers 120lbs. and up (55kgs.+)

HOTSHOT TRAINERS

up to 60 lbs

FEATURES:
- Removable stabilizing bar comes standard
- Wide tail for easy planing
- "How To" DVD included
- Dual-handle mainline puts you in control of your child's ride

SIZE:
For children up to 60 lbs. (27kgs.)

WAKESKIS

145 CM

130 CM

145 CM ☐ 130 CM ☐

FEATURES:
- Twin-tipped water skis designed to ridden wake to wake, rails and winch
- Wakeboard based shape
- Compression molded construction for stiffness and durability
- Polyurethane core
- 100% fiberglass wrap
- Category-first 3D bottom contours
- Category-first kick tips
- Geometric top contours for reduced weight and maximum torsional stiffness.
- True twin-tip shape for perfect switch takeoffs and landings.

SIZES:
130cm, 145cm

KNEEBOARD SERIES:

JOKER

FEATURES:
- Symmetrical compression molded design
- Thinner profile for advanced performance
- Unique flow channels in tip
- 30 degree bottom rails for edge holding power
- Quad-density molded pad
- HO's exclusive Flex-Zone Belt

ELEMENT

FEATURES:
- Symmetrical compression molded board
- Hard rails for deeper edge control
- True straight channels for positive tracking
- Tri-density molded pad
- HO's Fully adjustable single locking Comfort-Strap
- Great design for all levels of riding

PROTON

FEATURES:
- High-End advanced twin-tip design
- Innovative step down rail for more consistent ride
- 20 degree bottom rails for superior control
- Thin profile combined with continuous rocker for maximum performance at any rider level
- HO's exclusive Dual-Option fin system
- HO's exclusive Easy-Start system
- Larger orthotic pad for comfortable ride
- HO's exclusive Flex-Zone Belt

NEUTRON

FEATURES:
- Twin tip design with step down rail for consistent ride
- Continuous rocker for easy tricks and soft landing
- Molded-in fins for maximum control
- Larger orthotic pad for comfortable ride
- HO's single locking strap
- Best board for beginners to intermediate riders

ELECTRON

FEATURES:
- Symmetrical dual radius side cut for maximum performance
- 4 molded-in fins for advanced control
- HO's exclusive Easy up system for deepwater starts
- Larger orthotic pad for comfortable ride
- HO's Fully adjustable single locking Comfort-Strap

PRODUCT FEATURES:

Here at HO we pride ourselves in creating premium products for watersports enthusiasts of all ages and abilities. We are constantly taking steps to provide the most enjoyable towable experience on the water and the 2009 HO inflatable line is no exception. We've updated the graphics on some of our most popular tubes from the Extreme to the Solo X and even the Bomber. As if that wasn't enough, we're proud to introduce the largest tube in our history, the 6 person G6 with multiple seating orientations. So weather you are looking for a tube for the whole family, a tube to push the limits of extreme riding or just a tube for a leisurely cruise, look no further than the next couple pages!

PRODUCT FEATURES

MAXIUM NUMBER OF RIDERS

NYLON DENIER WEIGHT
The denier weight of nylon refers to the size of the yarn used in the weave of the material. 420 denier nylon is used for smaller and entry-level towables. 840 denier nylon is the strongest and highest quality material used to reinforce our largest and toughest towables.

PVC BLADDER GAUGE
30 gauge PVC designates the highest quality, highest durability bladder material used in the towable industry. All PVC used in HO products is pure virgin vinyl.

TUBE WEIGHT (LBS)
Exact tube weight (dry, uninflated at sea level, give or take a few ounces)

NEW QUICKFILL VALVE
A user friendly, high-capacity valve with no cap to unscrew, or lose.

NUMBER OF BOSTON VALVES
a Boston valve is the standard high-capacity valve used on all our upper-end inflatables.
(Helpful Hint: Make sure they're tight! Screw'em in all the way, and thread'em correctly)

NUMBER OF STEM VALVES
a stem valve is the small, one-piece valve that everyone used as a kid to blow up a beach ball.

NEOPRENE PADDING
neoprene is used to increase the comfort of the ride.

QUICK TOW ATTATCHMENT
this allows you to quickly attach the tow-rope to the tube.

NUMBER OF CUP HOLDERS
only located on the Leisure Line products. these are expertly located to maximize drink accessibility.

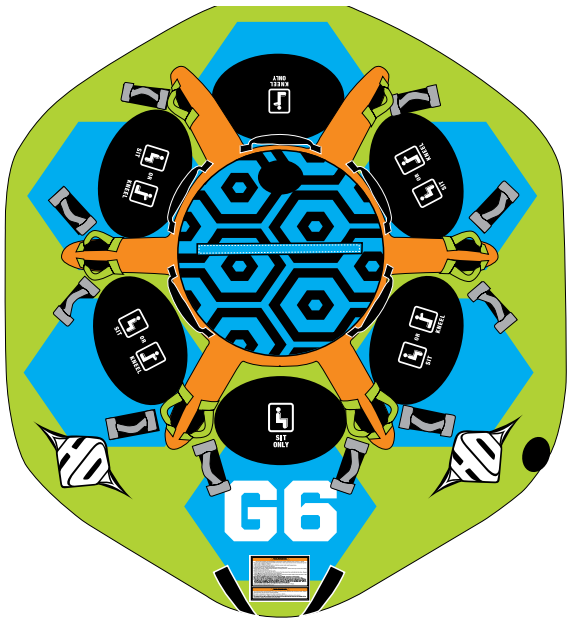
ONE YEAR WARRANTY
only located on the Leisure Line products. these are scientifically located to maximize drink accessibility.

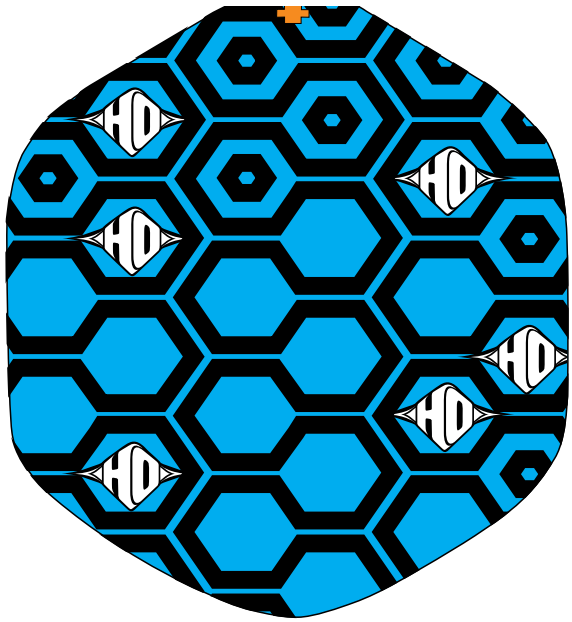
G6 110”X104”

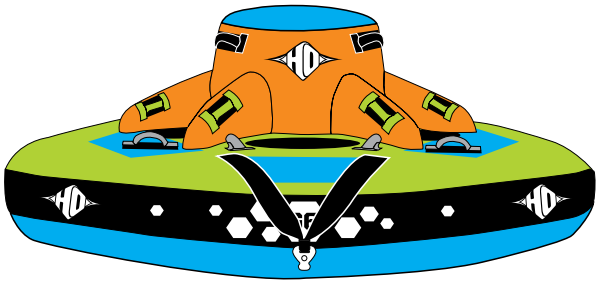
New for 2009, HO Sports is proud to introduce the G6 tube. Grab 6 of your friends, jump on, and get ready for the ride. Whether you’re pulling G’s in the whip or taking a pleasure cruise with your little ones, pick up a G6 and you won’t be sorry! Sit on the tube facing outward or kneel on the neoprene pads facing the center- the choice is yours. Made from the highest quality materials, this tube is sure to provide seasons of fun.

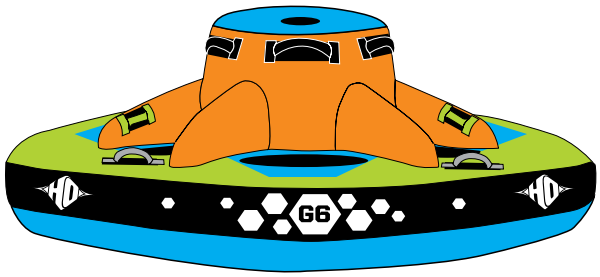
FEATURES:

- 1 Year Limited Warranty
- Multiple Riding Orientations – sit or kneel
- 110”x104” Tube Dimensions
- Up to 6 riders or 1,020 lbs
- HO Quick Connect Tow Attachment
- 2 Boston Valves for easy inflation
- 840 Denier PU Coated Nylon
- 30 Guage PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards







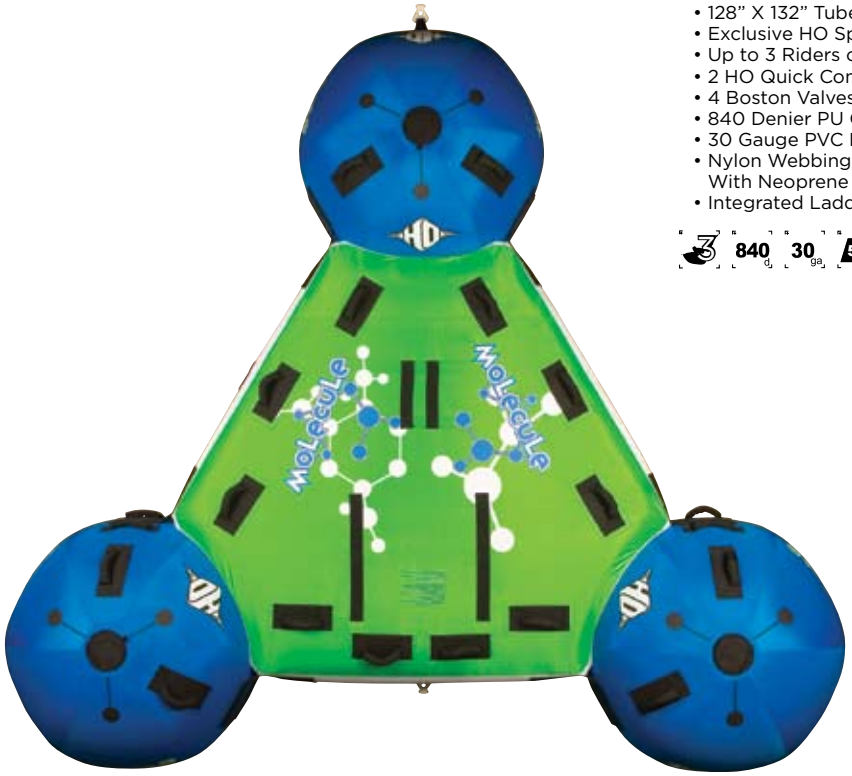


ION 128"X93"

FEATURES:
- 1 Year Limited Warranty
- 128" X 93" Tube Dimensions
- Exclusive HO Sphere technology
- Up to 4 Riders or 680 Lbs.
- Heavy Duty Quick Connect Tow Attachment
- 5 Boston Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Integrated Ladders for Climbing Aboard

MOLECULE 128"X132"

FEATURES:
- 1 Year Limited Warranty
- 128" X 132" Tube Dimensions
- Exclusive HO Sphere technology
- Up to 3 Riders or 510 Lbs.
- 2 HO Quick Connect Tow Attachment
- 4 Boston Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Integrated Ladders for Climbing Aboard



ATOM 90”X96”

FEATURES:
- 1 Year Limited Warranty
- 90” X 96” Tube Dimensions
- Exclusive HO Sphere technology
- Up to 2 Riders or 340 Lbs.
- 2 HO Quick Connect Tow Attachment
- 4 Boston Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards

BLACK ICE 78”

FEATURES:
- 1 Year Limited Warranty
- 78” Diameter Tube Dimensions
- Exclusive HO Sphere technology
- Up to 3 Riders or 510 Lbs.
- HO Quick Connect Tow Attachment
- 2 Boston Valves/ 1 Stem Valve
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Protective Neoprene Pad For Riding Comfort

EXTREME SERIES:

TRIPLE SHOT

FEATURES:
- 1 Year Limited Warranty
- Up to 3 Riders or 510 Lbs.
- HO Quick Connect Tow Attachment
- 2 Boston Valves/ 4 Stem Valve
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Cup Holders For Lounging

DOUBLE SHOT

FEATURES:
- 1 Year Limited Warranty
- 60" X 50" Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- 2 Boston Valves/ 3 Stem Valve
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Cup Holders For Lounging

EXTREME 75"X75"

FEATURES:
- 1 Year Limited Warranty
- 75" X 75" Tube Dimensions
- Up to 3 Riders or 510 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 2 Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Protective Neoprene Pad For Riding Comfort

BOMBER 72"

FEATURES:
- 1 Year Limited Warranty
- 72" Diameter Tube Dimensions
- Up to 3 Riders or 510 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Protective Neoprene Pad For Riding Comfort

ROCKIN ROLL 65”X56”

FEATURES:
- 1 Year Limited Warranty
- 65” X 56” Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 2 Large Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Protective Neoprene Pad For Riding Comfort

DRAGON 64”X60”

FEATURES:
- 1 Year Limited Warranty
- 64” X 60” Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 2 Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- New Tarpaulin Bottom For Extra Speed

2 | 840 d | 30 ga | 47 | 1 | 2 | | 1

SOLO X 64”X60”

FEATURES:
- 1 Year Limited Warranty
- 64” X 60” Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 2 Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards

SLIDER 51”X25”

FEATURES:
- 1 Year Limited Warranty
- 51” X 25” Tube Dimensions
- 1 Rider or 170 Lbs.
- Heavy Duty Nylon Tow Attachment
- 3 Stem Valves
- 840 Denier PU Coated Nylon
- Heavy Duty Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards

1 | 840 d | 6.4 | 3 | 1

FORMULA 3 94”X90”

FEATURES:
- 1 Year Limited Warranty
- 94” X 90” Tube Dimensions
- Up to 3 Riders or 510 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 4 Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Sunken Seats For More Stability

FORMULA 2 73”X75”

FEATURES:
- 1 Year Limited Warranty
- 94” X 90” Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 3 Stem Valves
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Sunken Seats For More Stability

3XS 72”

FEATURES:
- 1 Year Limited Warranty
- 72” Diameter Tube Dimensions
- Up to 2 Riders or 340 Lbs.
- HO Quick Connect Tow Attachment
- Boston Valve/ 1 Stem Valve (Seat)
- 840 Denier PU Coated Nylon
- 30 Gauge PVC Bladder
- Nylon Webbing Covered Soft Foam Handles With Neoprene Knuckle Guards
- Large Inflatable Seat For Riding Comfort

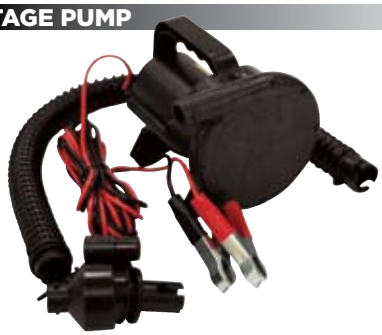
SUN SEEKER

FEATURES:
- 1 Year Limited Warranty
- 2 Cup Holders
- Equipped With A Personal Cooler
- Built For 1 Person
- 2 Stem Valves
- Heavy Duty Gauge PVC
- Equipped With Product Network Attachments

INFLATABLE ACCESSORIES:

12 VOLT HIGH VOLTAGE PUMP



DESCRIPTION:
This High Volume Inflator is sure to fill your tubes as fast as you want. This inflator pumps out a massive 2.5 PSI and will fill even the largest tubes. This is a must have on any boat.

COMPACT INFLATOR/DEFLATOR 12 VOLT & 110 VOLT

DESCRIPTION:
Being able to inflate and deflate tubes in your boat is a huge benefit and convenience, and one of our excellent HO inflator/deflators will definitely improve your experience. These inflator/deflators are compact and powerful enough to quickly inflate all our tubes to the correct pressure. Both pumps include attachments for Boston and stem valves.

DUAL ACTION HAND PUMP

DESCRIPTION:
Pumps air into the tube while pulling up or pushing down. Does it fast and gets the tube as firm as you want. The included attachments fit small stem valves, large stem valves, and Boston valves.

TUBE TOTE

DESCRIPTION:
HO Tube Totes give you the ability to easily transport and store your inflatable products. Simply lay the bag flat, throw the tube on, use the compacting straps and roll the tube up. This is a simple and clean way to make dealing with your inflatables hassle free.

SIZES:
Large, Medium and Small

SMART ANCHOR

DESCRIPTION:
The HO Smart Anchor is a mushroom shape bag anchor. Fill it with rocks or sand and anchor large towables in up to 30 feet of water. Use the Smart Anchor to give your towables another life as floating islands. Then use the HO Link Lanyards (sold separately) to attach other inflatables around your new island and enjoy the HO Product Network! The Smart Anchor includes the reinforced anchor bag, variable length 30 foot anchor line, and attached floating rope collection bag to keep the excess rope safely out of the way.

TECH GUIDE

GND
Product designed by one of wakeboarding's true innovators, Greg Nelson.

SHAPED BY BUTCH
Designed by the pioneer of the 3 stage rocker and molded in fins Scott Bouchard.

NOVA CORE
Named after an exploding star, Nova core gets it title through its release of energy off the wake. This core material is the lightest, most advanced polymer on the market. It is fully machined to a perfect tolerance, and then laid up for a ride like no other.

BIO2 CORE
Our secret little recipe we have been perfecting since day one. This core material is the gold standard in the industry and used through out our line.

E CORE
Innovation thru energy. A 100% wood core brings the life of your favorite snowboard and a new dimension of wake to wake feel and control on rails.

GAMMA GLASS
This is our most advanced glass system to date. Kept frozen until the time of lay up, Gamma glass is fully impregnated with a resin system which activates after the mold is closed. This allows for the perfect ratio of resin to glass.

CARBON TORSION ZONE
Aerospace grade carbon graphite builds unmatched strength and energy into every board it's put into.

PHALANX CONSTRUCTION
Named after one the most impenetrable military formations in history. Phalanx construction is just that, a new method of building a board which joins the top laminates to the bottom creating the strongest construction possible.

ABS SIDEWALL
You have one of those rides where nothing is going your way. Just feel like smashing your board? If you have to take it out on something . . . hope you have ABS.

MONOCOQUE CONSTRUCTION
Integrating the top glass and the bottom glass into one. Generating a more durable board on side impacts thus preventing the ol' side delamination.

LAYERED GLASS
Non-woven glass available in 4 sizes depending on the board. Over time, traditional woven glass fibers will separate. With layed Glass Every Hyperlite deck will have the same snap on a double after 5 seasons as it will on the first one.

SATIN FLEX
Tailored specifically to a ladies needs. A softer glass lay up to create a softer flex and a board built to female riders standards.

LIMITED LIFETIME WARRANTY
There is no need for buyers remorse. We back our boards up.

REAL WOOD INLAY
A little piece of Mother Nature sealed into every board. These inlays are 100% real Burl wood. Lumberjack not included.

METAL FLAKE TOP
Boats shouldn't be the only ones cruising around with a little extra flash

TRAVELER BAGS:

BENDER BAG

DESCRIPTION:
Many of the same features as the Management Travel Bag, but in a weekender size. Fits most airplane overhead compartments.

CAPITAL BACKPACK

DESCRIPTION:
Padded computer storage, CD/MP3 pocket, cell phone storage and the most volume of any Hyperlite backpack.

WHEELIE BOARD BAG

DESCRIPTION:
Luggage wheels make dragging this monster a breeze and interior wet and dry pockets make for easy storage.

MANAGEMENT WHEELIE TRAVEL BAG

DESCRIPTION:
Wheels, extending pull arm, separate interior compartments and outside pockets for quick access make this the only bag needed for travel.

TEAM BOARD BAG

DESCRIPTION:
This bag comes equipped with backpack straps and a perfect slider to dream about. Room enough for boots, vest, and rope and handle. Buy it and find out what we are talking about.

TEAM BOARD BAG BROWN

DESCRIPTION:
Equipped with a gear pocket big enough for your rope and handle with interior wet pocket for vest and a couple of cold ones.

PRODUCER BOARD BAG

DESCRIPTION:
Offers everyday protection plus plenty of pockets and room for storage. Padded shoulder strap for carrying comfort.

ESSENTIAL BOARD BAG

DESCRIPTION:
Blue & Red: Unpadded option for travel or a great gear bag for all your equipment.

WOMEN'S PRODUCER BOARD BAG

DESCRIPTION:
Offers everyday protection plus plenty of pockets and room for storage. Padded shoulder strap for carrying comfort.

WOMEN'S ESSENTAIL BOARD BAG

DESCRIPTION:
Unpadded option for travel or a great gear bag for all your equipment.

WOMEN'S DIVINE BACKPACK

DESCRIPTION:
Convenient smaller volume pack for gear or everyday use.

GEN M BACKPACK

DESCRIPTION:
Kids will love this backpack's multiple pockets; sized just for them.

DEPLOYMENT BACKPACK

DESCRIPTION:
Multifunction, versatile day pack. Take it to school or on your next jungle invasion, equally useful.

CATALYST WAKESKATE BAG

DESCRIPTION:
Interior mesh pocket for your stuff and a deluxe padded shoulder strap to make carrying a breeze.

WAKEBOARD RUBBER WRAP

131 - 147

109 - 130

DESCRIPTION:
Basic protection for your board, because no board should be unprotected.

SIZES:
- 109-130
- 131-147

WAKESKATE RUBBER WRAP

DESCRIPTION:
Protect your investment with this innovative neoprene wrap.

FEATURES:

- Brock Foam™ is exclusive to Hyperlite by Bern helmets. Brock is a light weight foam that allows moisture and air to circulate through it in any direction without the risk of absorption. Brock Foam is also very resilient and returns to its original shape after impact, thus offering protection for multiple impact applications.
- Sink Fit is a unique fit and feel featured in all Hyperlite By Bern Helmets. This construction allows the helmet to ride at a low profile for a better fit and feel.
- Ear Protection is an additional feature to all Hyperlite by Bern Helmets. With a removable snap system, these soft conforming ear flaps offer maximum protection for high speed falls
- Adjustable Chin Strap allows for a wide array of head shapes and sizes.
- Ladies Specific Sizing is offered in the Kink'd line of helmets. With sizing different than any of the male helmets and softer lines around vents and drain holes, this is a helmet truly built for a woman.

ASSULT VEST

DESCRIPTION:
A non-restrictive design allows this lightweight impact-resistant vest full mobility and ultimate comfort.

SIZES:
XS - XXL
Non USCG Approved

XS ☐ SM ☐ MD ☐ LG ☐ XL ☐ XXL ☐

BYERLY BY: BERN

FEATURES:

- Brock Foam™ is exclusive to Hyperlite by Bern helmets. Brock is a light weight foam that allows moisture and air to circulate through it in any direction without the risk of absorption. Brock Foam is also very resilient and returns to its original shape after impact, thus offering protection for multiple impact applications.
- Sink Fit is a unique fit and feel featured in all Hyperlite By Bern Helmets. This construction allows the helmet to ride at a low profile for a better fit and feel.
- Ear Protection is an additional feature to all Hyperlite by Bern Helmets. With a removable snap system, these soft conforming ear flaps offer maximum protection for high speed falls
- Adjustable Chin Strap allows for a wide array of head shapes and sizes.

SM ☐ MD ☐ LG ☐ XL ☐

CHAMOIS GRIP HANDLE

DESCRIPTION:
The Byerly Team endorses Chamois, the Byerly Chamois Grip, not the other chamois' that Scott makes them clean the RV with. The Chamois Grip delivers a smooth soft grip while staying tacky enough for quick winch hits or boosting big airs. Presented in Byerly black, this grip will leave you hangin'...hangin' on through your best ride.

TRACTOR GRIP HANDLE

DESCRIPTION:
New for 2009 is the Tractor Grip handle. This is a traditional rubber handle that has been laser etched with graphics that could only belong to Mr. Byerly.

FEATURES:
- New to the industry laser etched graphics
- 1" standard diameter rubber handle
- 15" length offered in "T" or straight options

EVA HANDLE

DESCRIPTION:
The inventor of the machined EVA wanted it just that way. Sometimes less is more.

FEATURES:
- 3mm die cut EVA grip
- Diamond pattern thermal formed EVA grip
- EVA surface sanded for added grip texture
- 15" length offered in "T" or straight options

80' A-LINE

DESCRIPTION:
The rope of choice by the Byerly Team, this urethane coated mainline will do you right.

FEATURES:
- Stiff 12 strand braided Dyneema Core
- Urethane cable-coating over the core
- Snag free, smooth outer surface
- Urethane coating will not crimp or crack
- 80' total length mainline w/3 – 5' sections

BYERLY JACKET

DESCRIPTION:
The often imitated, stiff performing, tangle free spectra fusion jacket.

FEATURES:
- Closed-cell neoprene core – floats like a cork
- 100% linear Spectra outer core
- 70' Total length mainline w/3 – 5' sections

CARBON FIBER SLALOM ARS HANDLE

DESCRIPTION:
New for 2009 is the Accurate Carbon Fiber Slalom Handle, an industry first. 30% lighter than a traditional slalom handle, the Accurate Carbon Fiber Slalom Handle feels like nothing in your hands.

41 TAIL CUSTOM SERIES HANDLE

DESCRIPTION:
The syndicate athletes asked for the traditional custom handle with exposed rope so you can inspect your handle before each set

FEATURES:
- Improved rubber – easy on the hands/ phenomenal grip
- Thicker wall, super strong aluminum core
- Strung with AWSA approved rope, in a 4-way weave construction
- Exposed rope end caps – for easy wear inspection
- Available in .940" and 1.062" diameters – 12" and 13" lengths

SYNDICATE KNOTLESS 11 SECTION MAINLINE

DESCRIPTION:
Unique to the industry, this mainline is the line of choice by the Syndicate Team

FEATURES:
- No knots – each section is back braided so that no knots are needed
- No removable sections – all loops are permanently connected so that changing the rope up is easy as pie

CUSTOM ARS HANDLES

FEATURES:
- Improved rubber – easy on the hands/ phenomenal grip
- ARS (Anti-Roll System) Equipped
- 12" and 13" handles available in .940" and 1.062" diameters

13" FREERIDE SLALOM HANDLE

DESCRIPTION:
Freeride your slalom ski in comfort without gloves

FEATURES:
- Three ridge dual density EVA
- ARS (Anti-Roll System) Equipped
- Die cut EVA graphics
- Strung with Dyneema rope

LIMITED ARS HANDLES

FEATURES:
- Available in 12", 13" or 13" ARC in our standard 1" diameter Team grip
- 4 weave construction – double rope for additional strength
- ARS (Anti-Roll Sytem) equipped

LIMITED TEAM HANDLES

FEATURES:
- Available in 12", 13" or 13" ARC in our standard 1" diameter Team grip
- 4 weave construction – double rope for additional strength

LIMITED MAINLINES

FEATURES:
- 80 strand pre-stretched rope exceeds AWSA standards for World Record capable tournaments
- Available in 10 or 8 section options
- Detachable sections – each section includes ID sleeve

EXTREME HANDLES & MAINLINES

FEATURES:
- Available with our 13" Team bar
- 2-way weave construction with double rope for added strength
- 4" vinyl end caps and clear vinyl on the yoke for abrasion resistance
- Available with an 8-section or 5-section mainline

POWER GRIP HANDLE

FEATURES:
- Tacky team handle with strong aluminum alloy core
- Available with an 8-section or 5-section mainline
- 4" vinyl end caps

DOUBLE HANDLE W/70' REC.

FEATURES:
- A blast from the past for those who cannot ski without it
- Available with 70' mainline in red, blue or white

70' REC. MAINLINE

FEATURES:
- Exceeds AWSA rope requirements
- Great Value
- Available in red, blue, purple and multicolored

75' 13" MOLDED EVA WATERSPORTS ROPE

FEATURES:
- 13" Molded EVA handle grip, aluminum core
- 4mm thick EVA grip
- Poly "E" 12-strand rope, exceeds AWSA standards
- 4" vinyl end caps to protect your fingers
- Includes a 70' recreational slalom rope
- Available in blue/yellow, black/white and silver/red

RUBBER TEAM HANDLES

FEATURES:
- 12" smooth tacky rubber handle
- Comfortable grip, with excellent durability
- Exceeds AWSA rope requirements
- Available in 75', 100' Lengths, and available in a 3-section ski rope & a deep-v package with 70' Recreational Mainline
- Assorted Colors

ELITE DEEP V SERIES

FEATURES:
- Super Tacky 15" Rubber grip, aluminum core handle
- Makes deep-water starts a snap
- Available with an Extreme 5-section or a 70' Recreational Mainline
- Handle colors: blue, yellow, silver

TUBE ROPES

2K FEATURES:
- 2,375 lbs. average tensile strength
- 60' length with a float
- For towing up to a maximum of two people or 340 lbs.

4K FEATURES:
- 4,100 lbs. average tensile strength
- 60' length with a float
- For towing up to a maximum of four people or 680 lbs.

6K FEATURES:
- 6,000 lbs. average tensile strength
- 60' heavy duty multi-rider tube rope
- For towing up to a maximum of six people or 1020 lbs.

PRO GRIP GLOVE

FEATURES:
- A great basic glove with features like Amara palm, neoprene back hand panel and reinforced adjustable wrist strap
- Sizes XS-XXL

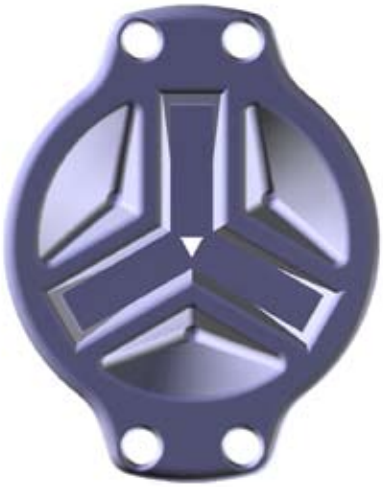
WORLD CUP GLOVE (FULL & 3/4)

FEATURES:
- Pre-Curved side panels on the fingers, this material is elastic yet more durable than previous materials. Full neoprene back hand panel, double padded Amara palm, webbing back hand strap and great looking new flexible logo patches. This glove makes for a great all around glove.
- Available in full and 3/4 finger length options
- Sizes XS-XL

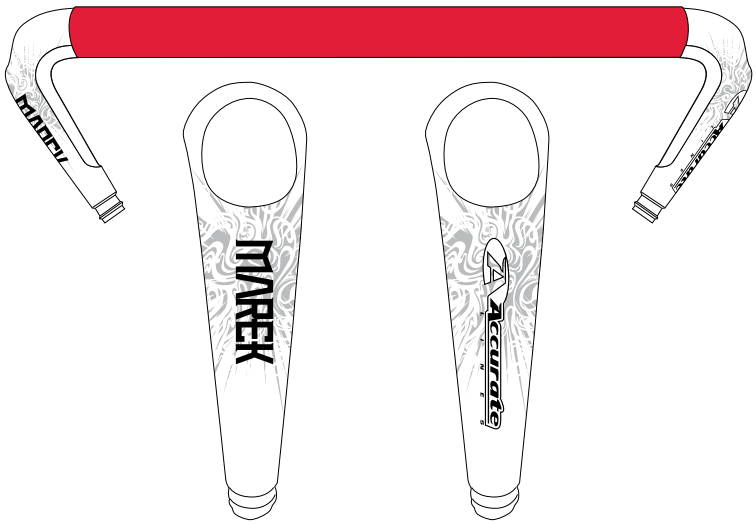
ROPE SHORTENER

DESCRIPTION:

What length do you ride at? 70'? 75'? Ever wish you could dial your rope in to a specific length to match your boat's wake? The Accurate Rope Shortener has got you covered. Shipped with an 80' line, you can adjust your rope to ANY length you want. It even works for wake surf lengths. From the brain of the mad scientist Shaun Murray, the Accurate Rope Shortener is sure to turn some heads.



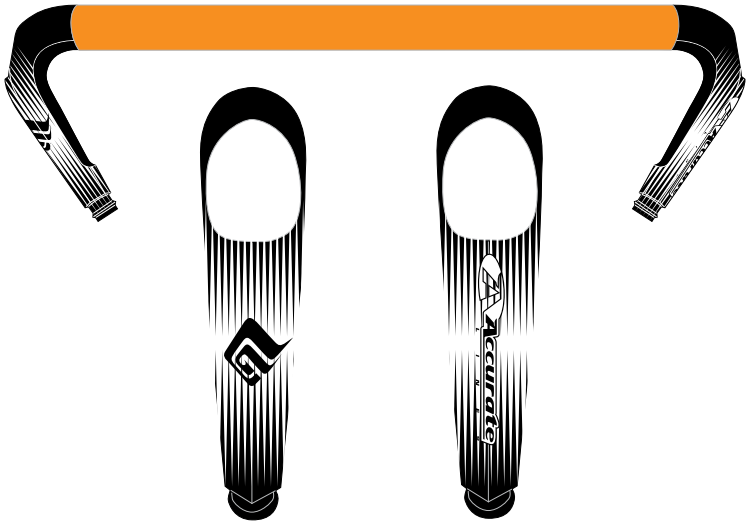
MAREK CARBON HANDLES



DESCRIPTION:
You've seen the board and you know the name: Marek. Rusty Malinoski gave this name to his son first, then his new Carbon Fiber Handle. This unique design utilizes a minimum amount of carbon. The Carbon Fiber runs only 3 inches past the end cap, eliminating any handle roll. The Marek is the lightest handle we've ever produced.

FEATURES:
- New Carbon Fiber Handle Shape
- 15.7" length offered in straight or "T" options
- Endorsed by Rusty Malinoski

CATALYST CARBON HANDLES



DESCRIPTION:
Our new Catalyst Handle reduces the total Carbon Fiber necessary for a solid tow and produces the lightest feel in your hands while riding. The Carbon actually ends 3 inches after each end cap eliminating any handle roll and making it the lightest handle we've ever produced.

FEATURES:
- New Carbon Fiber Handle Shape
- Offered in Straight or "T" braid options
- 15.7" length offered in straight or "T" options
- Endorsed by Brian Grubb

PROOF CARBON HANDLE

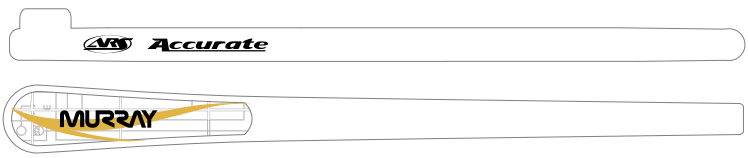
DESCRIPTION:
• 16.5” length handle grip with larger handle side radiuses at either end of the handle
• The sides of this shape are wrapped with 4mm thick EVA for added riding and handle pass comfort
• Less volume – less to rotate
• Die cut EVA handle grips
• High strength clear coat finish

FEATURES:
• Die cut graphics
• 4mm side EVA
• Metallic red with carbon fiber accents
• High strength clear coat finish

PROOF CARBON ROPE

DESCRIPTION:
The Proof Carbon handle will be sold as a straight option only. For those who prefer the “T” or “V” wrap options, the tails will be sold separately

MURRAY ARS HANDLE



DESCRIPTION:
Leave it to Shaun Murray to create wakeboard handles while drying his boat, we’re not surprised, but the Murray Chamois Handle provides a soft comfortable feel and actually becomes stickier as water is squeezed out by your hands. Shaun is already shooting the infomercial for his Chamois Handle, but you can get yours now.

FEATURES:
• New Embroidered Chamois style grip
• ARS (Anti-Roll System) Equipped
• 15” length offered in straight, “T” or “V” options
• ARS (Anti - Roll System) Equipped

REVERB ARS HANDLE

DESCRIPTION:
When a guitar isn't in Erik Ruck's hands his new Reverb Wakeboard Handle is and he's jamming with it. The slightly wider diameter EVA grip is soothing and a solid grip is easily attainable. The Reverb utilizes a new machined EVA pattern that provides a cushy ride. Grab one in Straight or "T" wrap options, but don't hold it too close to the mic.

FEATURES:
- 5mm thick machined EVA grip
- ARS (Anti-Roll System) Equipped
- 15" length offered in straight or "T" options

PRIME ARS HANDLE

DESCRIPTION:
Back agian in 2009 is the Accurate Prime handle. The Prime consists of the same construction as the Premier handle we have grown to love

FEATURES:
- 4mm thick die cut EVA grip
- Dual density EVA strips
- ARS (Anti-Roll System) equipped
- 15" length offered in straight or "T" options

EXODUS ARS HANDLE

DESCRIPTION:
A slightly thicker EVA grip for those who prefer a softer handle

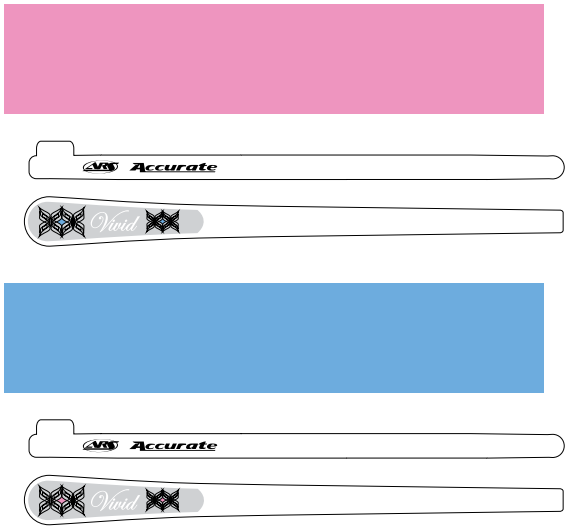
FEATURES:
- 5mm thick die cut EVA grip
- Two layered EVA dual density handle grip, for a super soft, yet tacky feel
- ARS (Anti-Roll System) equipped
- 15" length offered in straight or "T" options

ENDURE HANDLE

DESCRIPTION:
Accurate's version of the traditional rubber grip wakeboard handle

FEATURES:
- 15" length offered in straight or "T" options
- Strung with ultra spectra like the rest of our signature handles

VIVID HANDLE



DESCRIPTION:
For the ladies, the Vivid handle has received a full make over for 2009. Endorsed by Queen of Wake Chanmpion Nicola Butler, you know you'll be riding in style with the Vivid ARS handle.

FEATURES:
- 3mm die cut EVA grip
- Two colors of handles/mainlines
- Black pencil floats
- 15" length offered in straight or "V" options

VIVID MAINLINE

FEATURES:
- 100% pure spectra fiber
- 65' total length with 3 – 5' sections
- Available in pink or blue

CROSS OVER HANDLE PROJECT

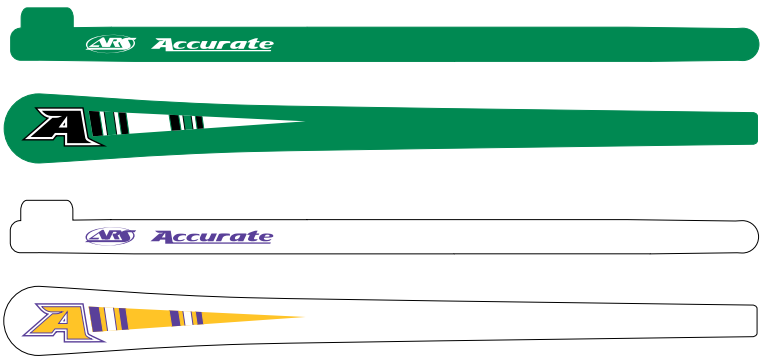
Always innovating, Accurate Lines is proud to introduce our cross over handle project. These unique handles bring something new to wakeboard handles and something interesting to talk about with your customers. We've chosen 3 well known sports; Football, Basketball and Motocross and have plans for more as these take off. Let's face it, a handle is a handle, why not have some fun with it?

TOUCHDOWN HANDLE

DESCRIPTION:
A tacky leather football handle with laces to boot, provides a surprisingly strong grip. Don't spike this handle after an impressive maneuver unless you are done for the day. Grab a hold of the Touchdown handle and put some points on the board.

FEATURES:
- Available in Black/Silver, Green/Yellow, 1.25" Diameter.

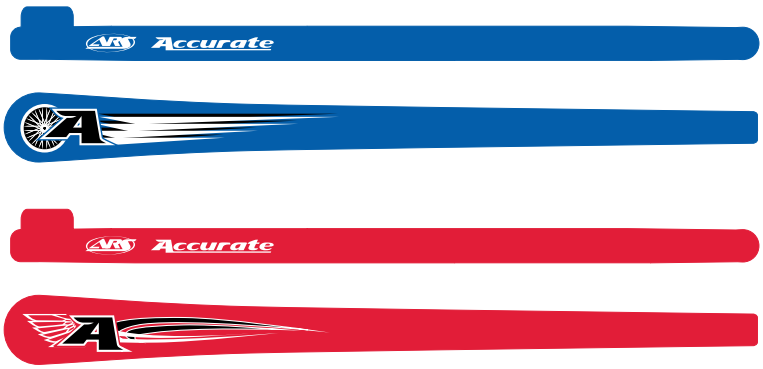
3-POINT HANDLE



DESCRIPTION:
A tacky leather Basketball handle in your favorite team colors provides a strong and comfortable grip. This is a slam dunk for all riders who enjoy shooting hoops when not slashing the wake.

FEATURES:
- Available in Purple/Gold, Green/White, 1.15" Diameter.

MOTO HANDLE



DESCRIPTION:
Based on a popular after market grip our Moto handle incorporates a waffle grip pattern under the fingers for maximum comfort. A textured pattern underlies the palm for added comfort and grip. Once you're in control with the Moto handle hold on for dear life and get on the gas.

FEATURES:
- Available in Factory Red or Blue, 1.2" Diameter.

CHAMOIS HANDLE

DESCRIPTION:
All Chamois' are available in a package of some sort and so is ours. Shaun thought this one up while cleaning his boat, which doesn't surprise us, but the Chamois Handle provides a soft comfortable feel and actually becomes stickier as water is squeezed out by your hands. Our package is available with an 80' A-Line, 70' X-Line or a 70' Fuse line- the choice is yours. (Mainlines pictures below)

FEATURES:
- New Embroidered Chamois style grip
- ARS (Anti-Roll System) Equipped
- 15" Length

80' A-LINE

FEATURES:
- Stiff 12 strand braided dyneema core
- Urethane cable coating over the core
- Snag free, smooth outer surface
- 80' total length with 3 – 5' sections
- Available in black, white, red and blue

70' X-LINE

FEATURES:
- Stiff 12 strand braided dyneema core
- Urethane cable coating over the core
- Snag free, smooth outer surface
- 70' total length with 3 – 5' sections
- Available in blue, white black and red

FUSE SERIES

FEATURES:
- 100% dyneema core
- polyethylene outer braided jacket
- 70' total length mainline with 3 – 5' sections
- Available in aqua blue, cherry red and sterling silver

APEX MOLDED EVA HANDLE W/70' FUSE MAINLINE

HANDLE FEATURES:
- 15" handle in T, V or straight options
- Soft molded 5mm EVA grip
- 6" finger protector end caps
- Available in yellow, silver, red and blue

MAINLINE FEATURES:
- 100% dyneema core
- Polyethylene outer braided jacket
- 70' total length mainline with 3 – 5' sections
- Available in aqua blue, cherry red and sterling silver

APEX MOLDED EVA HANDLE W/65' MAXIN MAINLINE

HANDLE FEATURES:
- 15" handle in T, V or straight options
- Soft molded 5mm EVA grip
- 6" finger protector end caps

MAINLINE FEATURES:
- 100% pure spectra fiber, low stretch
- 65' total length mainline with 3 – 5' sections
- Available in red, blue and black

APEX MOLDED EVA HANDLE W/60' POLY-E MAINLINE

HANDLE FEATURES:
- 15" handle in T, V or straight options
- Soft molded 5mm EVA grip
- 6" finger protector end caps
- Available in yellow, silver, red and blue

MAINLINE FEATURES:
- Poly Ethylene 4 section mainline
- 60' total length mainline with 3 – 5' sections
- Available in red, white and blue

WAKE SERIES:

80' TRACER CABLE

FEATURES:
- GLOWS IN THE DARK (requires charging by a light source i.e. headlights, flashlight, interior light, etc.)
- Urethane cable coating
- Snag free, smooth outer surface
- 80' total length with 3 – 5' sections

80' A-LINE

FEATURES:
- Stiff 12 strand braided dyneema core
- Urethane cable coating over the core
- Snag free, smooth outer surface
- 80' total length with 3 – 5' sections
- Available in black, white, red and blue

70' X-LINE

DESCRIPTION:
Same characteristics as the A-Line at a 70' length

FEATURES:
- Stiff 12 strand braided dyneema core
- Urethane cable coating over the core
- Snag free, smooth outer surface
- 70' total length with 3 – 5' sections
- Available in black, blue, white and red

JACKET SERIES

DESCRIPTION:
The original, often imitated, tangle free spectra fusion jacket.

FEATURES:
- Closed cell neoprene inner core – floats like a cork
- 100% linear spectra outer core
- 70' total length mainline with 3 – 5' sections
- Available in yellow, black and red

FUSE SERIES

DESCRIPTION:
Performance that won't break the bank

FEATURES:
- 100% dyneema core
- polyethylene outer braided jacket
- 70' total length mainline with 3 – 5' sections
- Available in aqua blue, cherry red and sterling silver

ULTRA SPECTRA SERIES

DESCRIPTION:
Stiff, strong and lightweight – what more could you want?

FEATURES:
- 100% pure spectra fiber, super stiff – low stretch
- 65' total length mainline with 3 – 5' sections
- Available in black, yellow and blue

20' SURF ROPE

DESCRIPTION:
This is the perfect rope for wake surfing. A small handle for easy deep water starts along with foam floats strategically placed so you can find that sweet spot with ease. No more rope burn.

FEATURES:
- 10" molded EVA handle
- 4 foam floats in 2ft increments
- 20' total length with 1 – removable 5' section

BOAT BUMPER

S ☐ M ☐ L ☐

DESCRIPTION:
These inflatable bumpers are going to revolutionize boat bumpers as we know them. Simply pull the plug on the bottom to release the air and they flatten to the size of a pancake.

Available in black or blue canvas

TRIALER BOAT GUIDES

TUBE CADDIE

THE SUPERFLY™ SERIES 9.0 AND 5.5

FEATURES

- Combines kite boarding with wakeboarding and water skiing to create a new big-air experience behind the boat
- Provides longer duration jumps and softer, “reduced-gravity” landings
- Rider controls the kite flight and is in control throughout the ride
- Designed for solid intermediate to advanced riders
- With more time in the air, riders can invent new tricks never before possible
- The Superfly 9.0 and 5.5 packages come complete with everything you need to get started, including: the patent pending WakeKite carbon fiber handle, all necessary lines, the inflatable kite, pump w/PSI gauge, User Manual and more

SAFETY

- Multiple safety features are designed into the Superfly 9.0 and 5.5
- Shackle Release – In boat, to release main towline from towboat
- Handle Release – When rider lets go, the handle disconnects automatically from the towline
- Kite Line Releases – If the kite is overloaded, the kite and kite lines will disconnect from the handle (and boat) as one or
  both kite line releases are triggered. Kite Line Releases are re-loadable.
- Kite is easy to get up and ride with, however, a strong learning curve prevents new riders from catching too much air
- Altering line lengths reduces air-catching ability
- Higher boat speeds (beyond recommended 18-24 MPH) reduce edging and ability for jump approach

RIDING & PULLING OPTIONS

- Innovative, inflatable kite design to be used with a wakeboard, combo/wakeskis, slalom water skis and more
- Kite can be pulled effectively with nearly any kind of boat, even a PWC!
- No tower is necessary and small wakes still provide a great opportunity for air!

SUPERFLY 5.5 PACKAGE

FEATURES :
- Smaller-sized kite (5.5 square meters of material) designed to provide less lift and lower arm fatigue
- Works with riders of lighter weight (85lbs. and up), yet still provides a great ride to full-sized adults looking for a bit less lift than the 9.0
- Requires solid intermediate to advanced riding skills on surface craft of choice (wakeboard, skis, etc..)
- Riders over 135lbs. may graduate to the 9.0 for great air after mastering this smaller kites' steering technique
- The major advantage of the 5.5 Kite over the 9.0 is the ability the rider has to more easily manipulate the kite, allowing for several more traditional wakeboarding tricks to be pulled, including grab-based tricks.

KITE FABRIC:
- Inflatable leading edge and struts constructed of heavyweight Dacron®
- Kite canopy constructed of rip-stop nylon

STERING HANDLE AND LINES :
- Stainless steel release shackle at boat
- Spectra tow line with tow ball
- Carbon fiber steering handle with Release ball (connects to tow ball)
- Color-coded, foam-encased spectra kite lines sheathed in PVC
- 13'6" kite steering lines connect to kite via "larks head" knots
- Color-coded power settings for greater or less lift

PACKAGE EXTRAS :
- Pump w/PSI gauge
- Gear bag with backpack straps and front zipper pouch
- User Manual

SUPERFLY 9.0 PACKAGE

FEATURES :
- Full-sized kite (9.0 square meters of material) designed to provided the greatest amount of lift
- Recommended for riders 135lbs. or higher
- Requires solid intermediate to advanced riding skills on surface craft of choice (wakeboard, combo/wakeskis, slalom ski, etc.)

KITE FABRIC :
- Inflatable leading edge and struts constructed of heavyweight Dacron®
- Kite canopy constructed of heavyweight Dacron®

STERING HANDLE AND LINES :
- Stainless steel release shackle at boat
- Spectra tow line with tow ball
- Carbon fiber steering handle with Release ball (connectsto tow ball)
- 17' Color-coded, foam-encased spectra kite lines sheathed in PVC
- Kite lines connect to kite via carabineers that clip to kite bridles
- Color-coded power settings for greater or less lift

EXTRAS :
- Pump w/PSI gauge
- Full-storage Gear bag with backpack straps and front zipper pouch
- User Manual & Instructional DVD

FLY 9.0 PACKAGE

TOW LINE

COMES WITH RELEASE SHACKLE AND TOW BALL

DESCRIPTION:
- 70' Yellow Jacket Main Line
- Equipped with two foam floats on either end for easy location in the water.
- Use With Superfly 5.5 & Superfly 9.0

RELEASE SHACKLE

DESCRIPTION:
- Stainless Steel Release Shackle with Pull Lanyard
- Attachment Loop to boat tower or cleat
- Allows boat observer to disconnect entire kite system from boat via Lanyard
- Use With Superfly 5.5 & Superfly 9.0

CARBON FIBER HANDLE

DESCRIPTION:
- Carbon Fiber Handle for riding and kite steering
- EVA grip with center reference bump for one-handed riding or tricks
- Black Release Ball at front of handle automatically separates kite from tow-line upon rider letting go
- Kite Line Releases on either side of handle designed to separate when overloaded
- Use With Superfly 5.5 & Superfly 9.0

KITE LINE

DESCRIPTION:
- Color-coded, foam-encased spectra kite lines sheathed in PVC
- 13'6" Lines for Superfly 5.5 come with end loops for larks head connection to kite.
- 17' Lines for Superfly 9.0 with attached carabiners to attach to kite bridles

SIZES :
- 13'6" – Use With Superfly 5.5
- 17' – Use With Superfly 9.0

KITE BRIDLES

DESCRIPTION:
- Color Coded (red for left, green for right)
- Two power setting rings (white for less lift, black for more lift)
- Attached to kite webbing leads via larks head knot
- Use With Superfly 9.0

HAND INFLATION PUMP

DESCRIPTION:
- Hand pump with inflate and deflate option
- Attached PSI gauge for proper kite inflation (5 psi for both kites)
- Use With Superfly 5.5 & Superfly 9.0

☐

GEAR BAG

DESCRIPTION:
- Designed for storage of the WakeKite and all its accessories
- Functions as an easy carry backpack
- One main compartment and one front zip pocket
- Bottom mesh screen allows for water drainage
- Use With Superfly 5.5 & Superfly 9.0

9.0 GEAR BAG ☐ 5.5 GEAR BAG ☐
